Note: The "blink" value is not supported in IE, Chrome, or Safari.

ACTIVITY 8

The screenshot shows the Visual Studio Code interface with a web browser window open. The browser's address bar shows the file path `C:/Users/User/Desktop/CSF3133%20WEB%20DESIGN/LabModule4/stailLink.html`. The page content displays the text `Ini adalah pautan` in red. Below this, the browser shows a file access error: `Your file couldn't be accessed` with the message `It may have been moved, edited or deleted.` and the error code `ERR_FILE_NOT_FOUND`. The Visual Studio Code interface includes a sidebar with icons for Explorer, Search, Run and Debug, and Extensions. The main editor area shows the HTML code for `stailLink.html`, which includes a link to `default.asp` with `target="_blank"`. The bottom status bar indicates the current file is `stailLink.html` at line 12, column 8.

EXERCISE

Run and Debug

To customize Run and Debug, [open a folder](#) and create a launch.json file.

Show all automatic debug configurations.

BREAKPOINTS

Caught Exceptions

Uncaught Exceptions

Show all automatic debug configurations.

CAR HISTORY

Lab 4 - Cars

About My Car

I own a car called "Ambatukancil". Ambatukancil is a fast sports car with a sleek design and a powerful engine. It's a blue car with an aerodynamic body and modern features. The video below shows a clip of my car, Ambatukancil.
